

BEETLEGONE!® TLC

beetleGONE!® tlc

1 lb Bag

Part #13-4002

beetleGONE!® is a bio-insecticide that helps protect the quality and value of crops and ornamental plants with the novel active ingredient, *Bacillus thuringiensis galleriae*. It effectively controls susceptible beetles, weevils, borers and grubs upon ingestion of the toxin. It is the first BT insecticide powerful enough to control both adult and larva stage of susceptible beetles. beetleGONE! demonstrated no adverse risks to non-targets tested. beetleGONE! is EPA registered for use on crops and ornamentals (e.g. trees and shrubs) found in and/or adjacent to residential and commercial grounds, parks, playgrounds, nurseries, greenhouses and agricultural fields.
