

21-22-4 FERTILIZER WITH MESOTRIONE

21-22-4 FERTILIZER WITH .08% MESOTRIONE

40 lb Bag

Part #20-3121

21-22-4 Fertilizer with Mesotrione is a homogeneous starter fertilizer granule impregnated with 0.08% Mesotrione herbicide. This unique combination of starter fertilizer and Mesotrione herbicide is ideal for use during turf establishment, renovation or overseeding to control selected grassy and broadleaf weeds while providing a high-quality starter fertilizer to promote seedling germination and rapid establishment.

- Ideal for use when seeding, sodding, sprigging, plugging, overseeding, or reseeding
- For use on Kentucky Bluegrass, Centipedegrass, tall fescue, fine fescue, and perennial ryegrass
- For use on home lawns, recreational areas, golf courses, and sod farms
- Homogenous granule utilizing patented, controlled release nitrogen for continuous feeding
