

GreenClean[®]PRO

For Cleaner Water in Irrigation Ponds

GreenCleanPRO is a fast-acting granular algaecide essential for proper irrigation system maintenance. GreenCleanPRO treats a broad-spectrum of algae types, including filamentous and planktonic blue-green algae. Due to its unique activated peroxygen technology, GreenCleanPRO's powerful oxidation provides additional efficacy against bacterial and fungal pathogens in the water column. GreenCleanPRO kills and suppresses algae, reduces pathogenic organisms and is proven safe for all crops and livestock.

- ▼ Treated waters can be irrigated immediately
- ▼ Use for spot treatments
- ▼ Non-corrosive to irrigation equipment and systems

Pest	Lbs. Per Surface Acre	Directions
Algae	100–400	Broadcast where algae is present using a hand spreader or gran-blow device. Spot treat as needed.
Bacteria		
Fungi		

Active Ingredient

Sodium Carbonate Peroxyhydrate
