

ProGreen Plus

30-0-6 with EPEC

For consistency and results, Turf Mangers turn to ProGreen Plus Professional Turf Fertilizer with EPEC® controlled-release fertilizer.

EPEC coated nitrogen contains the latest in polymer-coated technology that delivers reliable nutrient release with lower potential for nitrogen loss from leaching or volatilization.

35% EPEC, 2-MONTH FEEDING

30-0-6
PCU

GUARANTEED ANALYSIS

Total Nitrogen (N) 30.0%
30.0% Urea nitrogen*
Soluble Potash (K₂O) 6.0%

Plant foods derived from: Urea, Polymer Coated Urea and Muriate of Potash.

*10.5% slowly available urea nitrogen from polymer coated urea.

FEATURES

- Reduced likelihood of growth flushes and burn
- Release regulated by soil temperature and coating thickness
- Environmentally responsible with lower potential for nutrient leaching, denitrification, runoff, or volatilization

CONSISTENT. RELIABLE. PRECISE

KEY BENEFITS

- Quick greening
- Provides long-lasting feeding
- Potash to enhance turf health and root development
