

# ULTRA NU-STRAW

## Stop Erosion with Ultra Nu-Straw— Processed Straw Mulch

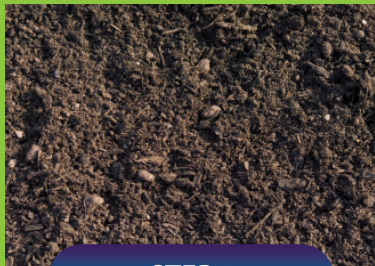

**2.5 cubic ft. size  
Covers up to 500 sq. ft.**

**Bonding agents give Ultra Nu-Straw a tackiness which holds it together and protects grass seed during germination**

- Use on slopes, heavy washout and windy areas
- Speeds up germination
- Saves time — water less often
- Biodegrades with no mess to clean up — just leave in place after the seed grows
- Protects seeds from birds
- Works great for small or large areas
- Applies easily — twice cut and processed straw in a convenient, easy-to-handle package
- Doesn't leave a mess in your vehicle
- Safe for pets and children

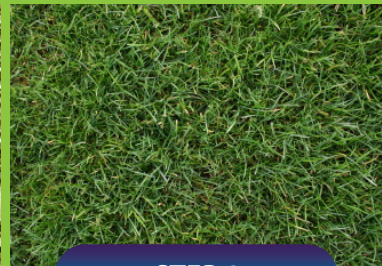

## Easy to Use with No Mess to Clean Up!

STEP 1

STEP 2

STEP 3

STEP 1 Loosen soil with a garden rake to a depth of 3 inches. Remove weeds twigs and debris. Spread seed and fertilize as recommended. Water lightly.

STEP 2 Cover area evenly with Amturf Nu-Straw. Protects grass seed from birds, wind and rain. Water lightly daily.

STEP 3 Amturf Ultra Nu-Straw helps enrich topsoil for **GREAT RESULTS!**

*Does not contain grass seed.  
Not recommended for pet bedding.*
