

Reduce or Prevent
Salt Damage
Along
Curbs and Walkways

Using
C20 Soil Builder
Technology

Improve lawn care results along walks and curbs all season long

- Relieve compaction and improve moisture penetration
- Thicken turf along edges of walks and curbs
- Improve pre and post emergent weed control all season
- Reduce service calls and customer complaints

Service provider
reduced turf loss
due to salt damage
by 85% over the
previous year

Note: area pictured averages 12+ snow events
and 45 inches of snowfall per season
